“Serving Greater Thurston County”

Tim Dickey started Dickey’s Handiwork in 2000 offering repair services. By 2005 they had incorporated and started doing business as Dickey’s Remodel & Repair. The company’s size and profile had changed significantly, growing to nine employees and doing approximately 90 percent remodeling and 10 percent repair work.

Dickey’s is now a full service general contracting company, but their specialty is bathrooms and accommodations for the aged and those with limited abilities. Tim says, “All our employees have formal training and remodeling experience to make these clients’ homes safe and comfortable.”

Tim believes in networking through membership in organizations such as the NKBA, NAHB, BIAW and OMB. He’s also a firm believer in continuing education for himself and his employees through NAHB’s education program, where they’ve earned RCS and

CAPS accreditations. These combined efforts keep them on top of business, legal and industry changes.

“All of us work very hard to be professionals in every sense of the word,” said Tim. “For example, a call to our office is answered by an experienced, courteous person. We slip boot covers on our shoes prior to entering homes. When a project begins, a Lead Carpenter is assigned who keeps our clients informed about their project at all times.” To quote a customer’s testimonial, “I’ve never had a work area left cleaner than it was when the work started!”

Dickey’s has been recognized for fine craftsmanship in their remodels winning Remodelers Excellence Awards for Commercial Remodeling, Residential Design, and Residential Whole House, Kitchen and Bath Remodels. Tim was also chosen as Olympia Master Builders’ Remodeler of the Year for 2004, 2005 and 2006.

Dickey’s Remodel & Repair is ready to help you with your projects, small & large, from start to finish. Call them to discuss your project. They’re in business to stay! Like their motto says—

“We Care... and It Shows!”
